

Merch Preference Survey

Kindly share your ideas for merchandise! We really want to know what does the community seek.

We are looking forward to make this data public(if sufficient responses are received), such that other clubs and communities get a better understanding of what they need to serve, and people receive more satisfactory items & merch.

The questions mostly are either general, or can be generalized.

Disclaimer of Release

Please be advised that participation in this survey does not constitute a guarantee or binding commitment by the Turing Club to produce or release any specific merchandise. The final decision to manufacture and distribute items is contingent upon multiple factors, including but not limited to, financial feasibility, logistical constraints, supplier availability, and verified community demand.

Code of Conduct & Data Integrity

All respondents are requested to provide constructive and respectful feedback. The submission of responses containing defamatory, harassing, or inappropriate language is strictly prohibited. The Turing Club reserves the right to redact, censor, or entirely remove any response deemed offensive or in violation of general conduct before the dataset is processed or made public.

27. **Data Release & Privacy Consent***

I hereby grant the Turing Club permission to include my responses in a public dataset and subsequent analysis. I understand and agree to the following:

- **Automated Anonymization:** My email address will be removed from the public dataset and replaced with a randomized unique identifier to protect my identity.
- **Respondent Responsibility (Manual PII):** I acknowledge that the Turing Club will **not** manually redact or censor personal information (such as names, contact details, or social media handles) if I voluntarily include them within open-text response fields. The responsibility for maintaining such privacy lies solely with me, and I consent to this information being made public if provided.
- **Data Analysis:** I authorize the Turing Club, as well as other IISERM clubs, communities, and individuals, to perform and distribute analysis based on my responses.
- **Open Access:** This data is being collected for the benefit of the wider IISERM community and will be accessible to the student body for transparency and collaborative use.
